WHAT IF YOU REALLY COULD **HAVE IT ALL?**

REDUCED HARDWARE

By combining multiple hardware components into one device, you're equipped for simpler installation, reduced inventory, and an overall better customer payment experience.

COMPLETE DEVICE SECURITY

With end-to-end device and data encryption, you can rest assured that your hardware and each transaction it processes are safe with the backing of Crane Total Security.

OPTIMIZED USER INTERFACE

A digital, LCD display, plus capacitive touch buttons provide both you and your customers an enhanced user experience. Technicians will love the ease of service with the on-screen technical menu, and customers will be engaged with dynamic, full-color graphics and an interactive payment experience.

MORE PAYMENT OPTIONS THAN EVER

All your payment options, all in one device? That's right. With ALIO Note, your machine can accept cash payment, plus Magstripe, Chip cards, EMV contactless, and mobile payment, all from a single touchpoint.

OUR FOCUS IS **INNOVATION.**

With over two decades of experience in developing reliable cash and cashless solutions, CPI has worked with vending industry leaders and payment experts to develop leading solutions that deliver measurable value to our customers.

- **8%** annual investment in research & development
